Qualitative · 10 Depth Interviews

Trust outweighs price parity

Evidence: Users preferred Amazon even at identical prices

Authenticity builds confidence

Evidence: Users suggested QR-based verification checks

Secondary Research

Delivery

The #1 complaint in 2025–26.
Long-term users say delivery reliability has sharply declined.

Support

Fully bot-driven. No matter how many times users contact, they get the same scripted response.

Trust Breach

Agents cancel orders and mark them "customer cancelled" — seen repeatedly across Play Store & Twitter.

Authenticity

Counterfeit Still Getting Through, yet complaints on fake/wrong items persist.

What it is

Auto-gifted 60-day Flipkart Black trial at checkout. Unlocks free delivery, Enhanced Customer Support 2x SuperCoins & early access.

₹5,000+ BBD spend trigger

Why now

BBD spikes traffic but builds no bridge to Day 60. A free trial turns the rush into a habit-forming window.

606M+ visits in 48 hrs

Who it's for

The price-driven BBD buyer — high-basket, sale-only shoppers with no reason to open the app once discounts end.

Strong Tier-2/3 presence

Trade-off

Limited to above-threshold spenders to cap subsidy cost — betting on habit formation over cheaper one-time cashback.

Risk: trial churn at Day 60

Every feature ties back to one goal — a full-price purchase within 60
